

Creative Activity – Week beginning March 30th

WATER CYCLE

These past few weeks we have been learning about the different stages of the Water Cycle.

We would like you to make a model of the Water Cycle using anything you can use at home!

Possible things to use:

- Lego
- Recycling
- Things you can find around the house
- Toys

Be as creative as you can.

Take a photo and send it to the school email where we can upload it to the school website.

Email: stjohnsfrome@educ.somerset.gov.uk
