

## The Nest Home Learning

### Summer Term 1 Week 1

#### Hello Nestlings

We hope you are enjoying your time away from school. We all really miss being with you. We will be putting new learning for each week onto the school website every **Monday morning**. We hope you will find these activities useful during your learning at home. We would like you to aim to do one activity each day, and we will try to make these as much fun as we can! It is also important to continue to read and listen to stories as we really enjoy story time in the Nest don't we? Look on the school website for stories from school staff; there is a new one every day for you to enjoy! We love it when you share your home learning with us. Please keep sending your photos in to the school website or sharing them on our school facebook page.

Best Wishes

Mrs Porter, Mrs Davis and Mrs McCarthy.

#### Topic – Mini-beasts

SMSC. Science.

- Listen to Mrs Porter read The Very Lazy Ladybird. Talk about the characters that are in the story. How do you think they were feeling? What would you do if you were one of the characters in the story and how would you feel?

Science.

- Research into ladybirds, talk about what you already know about them. What size, shape and colour are they? Where do they live, what is their habitat? What do they eat?

Art. English. Science.

- Create your own ladybird story and draw pictures in it too. If you want to why not film yourself or someone in your family reading it?

Science.

- Go on a mini-beast hunt. Keep a tally chart, take photos or draw them. Did you spot a ladybird?

Art.

- Make a collage picture of a ladybird using different materials such as paper, food packaging, wrapping paper, material, crayons, card and tissue paper. Any old scrap

will do but make sure you use the correct shapes and colours so it does look like a ladybird!

PE. Science.

- Move like a minibeast! Play some music and move about like some of the mini-beasts you may have found whilst on your hunt. Think about how they move around. Do they scuttle quickly like woodlice? Do they slowly slither like worms? Can you ask your family to guess what mini-beast you are? See if you can get everyone at home to join in with you and have some fun!
